

Wojciech Bajer

QA Lead / Test Manager | Automation & AI Quality

Wrocław, Poland | +48 694 913 653

Email: mail@wojciechbajer.com

LinkedIn: linkedin.com/in/wojciech-bajer | **GitHub:** github.com/neverased

Languages: Polish; English

Professional Summary

QA Lead with line management responsibility for a five-person team, including mentoring and professional development. Own test strategy, release readiness and quality metrics across web, mobile, API and hardware-integrated systems. Co-founder of Lexense.ai, combining hands-on automation and DevOps with LLM agents, retrieval-augmented generation (RAG), source verification and end-to-end Flutter mobile development.

Core Skills

People & Quality Leadership: Line management, mentoring, team development; test strategy, release criteria, quality metrics, stakeholder reporting

Automation & Programming: Playwright, Selenium, Pytest; TypeScript, JavaScript, Python; API, E2E and Hardware-in-the-Loop (HIL) testing

AI & Agents: LLMs, OpenAI APIs, tool calling, prompt and context engineering, document analysis, streaming chat and voice workflows

RAG & AI Verification: Embeddings, Qdrant, hybrid retrieval, reranking; evaluation datasets, citation validation, source grounding, regression testing

Mobile Development: Flutter, Dart, iOS / Android apps, API integration

CI/CD & Observability: GitHub Actions, Azure DevOps, Docker, Kubernetes; Grafana, Datadog, ReportPortal

Test Management: TestRail, qTest, Confluence, Agile / Scrum

Professional Experience

Quality Assurance Team Lead

Efectivo, Humanit Group | Wrocław, Poland | Feb 2025 - Present

- Line-manage a five-person QA team, with responsibility for mentoring and professional development.
- Own test strategy, test planning, testing standards and release readiness across API, backend, web, mobile, customer-hosted services and infrastructure workflows.
- Build and maintain end-to-end (E2E) and API scenarios for cross-system regression. Reduced regression validation time and manual verification effort through automated release checks, supporting several releases per month.
- Improve backend validation and use Grafana, Datadog, ReportPortal and internal tooling to communicate quality metrics and release risks to stakeholders.
- Design LLM-assisted workflows for testing tasks, product documentation and internal knowledge access.

QA and Automation Specialist

Efectivo, Humanit Group | Wrocław, Poland | May 2024 - Feb 2025

- Built end-to-end automation from scratch across web, backend and cross-system product workflows.
- Created HIL verification scripts and API checks for repeatable release validation.
- Worked with frontend, backend, mobile, hardware and infrastructure engineers to define automation scope and test coverage priorities.

AI Engineering & Verification

Co-founder and CTO (side project)

Lexense.ai | Poland | Jan 2025 - Present

- Architected an AI legal platform across web, mobile and backend services, integrating document analysis, streaming chat and voice agents.
- Built the complete Lexense mobile application from scratch in Flutter and Dart for iOS and Android, owning its architecture, UI and backend integration.
- Built LLM agent workflows using OpenAI APIs, tool calling, prompt and context engineering, and structured outputs for document analysis and legal question answering.
- Developed RAG pipelines covering OCR, ingestion, chunking, embeddings, Qdrant vector search, hybrid retrieval and reranking of legal sources.
- Implemented source and citation verification, exact-quote checks, handling of unsupported claims, and fallback behavior when evidence is insufficient.
- Built evaluation datasets and regression checks for retrieval and answer quality: Recall@k, MRR, nDCG, evidence coverage and unsupported citations; added latency and cost gates.
- Owned TypeScript / NestJS services, MongoDB, Redis, self-hosted infrastructure, CI/CD, observability and encrypted handling of sensitive documents.

Earlier Experience

DevOps Engineer (Consultant via HiQ)

Polestar | Gothenburg, Sweden | Feb 2023 - Mar 2024

- Built CI/CD infrastructure with Azure DevOps, GitHub, Docker, Kubernetes and Grafana reporting.

DevOps Engineer (Consultant via HiQ)

Volvo Cars | Gothenburg, Sweden | Jan 2022 - Jan 2023

- Improved CI/CD workflows, release tooling and automation for build integration and releases.

QA Engineer / QA Lead

Dolby Laboratories | Wrocław, Poland | Jan 2021 - Dec 2021

- Led interoperability testing; owned test design, test planning, test architecture and quality metrics.
- Built stakeholder dashboards combining qTest, Excel and Confluence data for release and risk reporting; supported Dolby Atmos and Dolby Vision pilot programs.

Associate QA Engineer

Dolby Laboratories | Wrocław, Poland | Oct 2018 - Jan 2021

- Tested HDMI interoperability across AV receivers, soundbars, TVs and set-top boxes.

IT Consultant | Consulting Wojciech Bajer | Mar 2021 - Present

Software and technical consulting across web systems, tooling and implementation support.

Education & Certifications

MSc, Acoustic Engineering | Wrocław University of Technology | 2018 - 2019

BEng, IT in Electronics | Silesian University of Technology | 2014 - 2018

ISTQB Certified Tester Foundation Level (CTFL) | 2019

Scrum Master Training, Scrum Group | 2019
