Work Experience

Lexense.ai — *Poland*

Co-founder and CTO — *Jan 2025 - Present*

- Architected an AI-native legal platform across mobile, web workspace, browser extension, core backend, and knowledge services.
- Designed the platform around Node.js, NestJS, RAG, OCR, and secure self-hosted infrastructure for legal search, document analysis, and conversational workflows.

Efectivo, Humanit Group — *Wrocław, Poland*

Quality Assurance Team Lead — *Feb. 2025 - Present*

- Line-managed the QA team and owned QA delivery, QA minima, test scenarios, and quality metrics for product and ecosystem releases.
- Led QA strategy and test architecture, with responsibility for the quality of E2E coverage across frontend, backend, and cross-system workflows.
- Tested Django-based backend services and integrations, with ecosystem-wide focus on security, performance, and reliability.
- Implemented observability and reporting workflows with Grafana, Datadog, ReportPortal, and internal tooling.
- Maintained and improved CI/CD pipelines used by product and ecosystem teams.
- Designed AI-powered agents and LLM + RAG documentation workflows to automate testing tasks and internal knowledge access.

Efectivo, Humanit Group — *Wrocław, Poland*

QA and Automation Specialist — *May 2024 - Feb 2025*

- Built end-to-end test automation for product and ecosystem workflows from scratch.
- Created verification scripts for Hardware in the Loop (HIL) testing.
- Worked with frontend, backend, mobile, and hardware engineers to define QA best practices and automation strategy.

Polestar — *Gothenburg, Sweden*

DevOps Engineer (Consultant via HiQ) — *Feb 2023 - Mar 2024*

- Built and maintained CI/CD infrastructure based on Azure DevOps and GitHub.
- Standardized software delivery practices, containerization, and Kubernetes-based deployment workflows.
- Built a Grafana-based logging and release visibility platform that aggregated progress across services.

Volvo Cars — *Gothenburg, Sweden*

DevOps Engineer (Consultant via HiQ) — *Jan 2022 - Jan 2023*

- Improved CI/CD workflows and development processes to streamline integration and delivery.
- Supported engineering teams with automation and tooling changes that simplified release procedures.

Dolby Laboratories — *Wrocław, Poland*

QA Engineer / QA Lead - Consumer Entertainment Technology — *Jan 2021 - Dec 2021*

- Led interoperability and ecosystem health testing across software and hardware workflows.
- Built and maintained CI/CD and QA processes, including test design, test planning, test architecture, and test metrics.
- Built a web dashboard that consolidated qTest, Excel, and Confluence data for non-technical stakeholders.
- Supported Dolby Atmos and Dolby Vision pilot programs with broadcasters and streaming services.

Dolby Laboratories — *Wrocław, Poland*

Associate QA Engineer - Consumer Entertainment Technology — *Oct 2018 - Jan 2021*

- Developed test procedures and a web application to aggregate device specifications, test data, and test metrics.
- Worked on ecosystem health, cross-device communication, and HDMI-related testing for AVRs, soundbars, TVs, and set-top boxes.

Consulting Wojciech Bajer — *Poland, Worldwide*

IT Consultant — *Mar 2021 - Present*

- Delivered consulting projects in software engineering, web development, e-commerce, and audio engineering for clients in Poland and abroad.
